The former aluminum plant is located between Millwood and Ravenswood, WV adjacent to the Ohio River.

The demolition and remediation services are subject to terms and conditions set forth in detail in the Request for Qualifications ("RFQ"). Copies of the RFQ may be obtained at the above address, Monday through Friday between 9:00 AM and 3:00 PM (holidays excepted) or may be downloaded from <https://eda.wv.gov/about/Pages/Meeting-Minutes-&-Public-Information.aspx>

Procurement of said services shall be in accordance with 2 CFR 200.320 (d) (5) and West Virginia Code Chapter 5G. All firms interested in being considered for this project must submit a SOQ detailing qualifications, technical expertise, management and staffing capabilities and related prior experience.

Respondents should demonstrate proof, in the form of a letter from a surety company, of the ability to obtain a payment and performance bond in the minimum amount of the contract amount.

The object of the competitive process is to objectively identify qualified firms who will provide the highest quality of service. Accordingly, technical qualifications and experience will be weighed heavily. Selected respondents will be interviewed, and the WVEDA will rank the three most qualified respondents, who will then be asked to proceed under a request for proposal process to submit bids for the project.
